## Walker P-C Candidate Ready

Progressive Conservative Candidate Ab Walker is already to start campaigning in Oshawa riding in readiness that very big day on Sept. 25th. Here he gets in practice by greeting the younger set. They are Ward Williamson and Barbara Byron, both of Pickering.

## Pickering Rotarians "Up In Air" For This Week's Special Meeting

Well, not quite, maybe, but as many here now know, the local Rotary Club, during the school vacation period, has been here and there for their weekly meeting for two months while the "catereria" at the High School has been closed.

On Monday evening of this week, "a new one" was tried. Club members were asked to dine at home, but, to get over to the Oshawa Airport, where a half-dozen light planes had been arranged for, to take into the air, the club members, on a sight-seeing half hour. Only about half of the membership turned up—some had reasonable excuses for absences, the remaining members will probably "make up attendance" elsewhere.

The viewing of our own home area is always an interesting experience. Flying at fifteen hundred feet or so, on a calm, clear night is a pleasant experience any time, and last Monday evening was just

that. Most of the planes circled over this village as a favour to the pilot's passenger. No meeting next Monday—Labour Day.

## Blue Notes To Go To Waterloo Sept. 7

The Pickering Youth Trumpet Band, the "Blue Notes," will be going to Waterloo on Sept. 7th, to compete again in the Drum Corps competitions.

Last year was the first time the Pickering group entered this competition and they came home with 3rd prize.

This was very good indeed considering the short time the band has been in existence and the number of bands competing at this festival.

# Court Refuses To Order A Twp. Wrecking Yard License

An Ontario Division Court last week turned down a request for a Mandamus, to order Pickering Township Council to grant a wrecking yard license.

Council some months ago, showed intentions of granting a license for a wrecking yard on the east side of Fairport Road, on the south side of the C. P. R. tracks.

Residents in the area petitioned and appeared before the council asking them not to go ahead with the granting of the license. Council then turned down the license request and the solicitor for the operator of the yard went before the courts.

## Dunbarton Woman Beaten, Robbed

Mrs. Margaret Guest of Pine Drive, Dunbarton, was punched and knocked to the road and her purse stolen on Monday evening as she walked north on Fairport Road.

Mrs. Guest told Pickering Township police that an old model car came along beside her with two male occupants. The passenger jumped out, and put his arm around her neck, then punched her in the face, breaking her glasses and she fell to the ground. The man then grabbed her purse, jumped back into the car, and sped off north on Fairport Road.

Fortunately, Mrs. Guest was not seriously injured. The purse thief got 60 cents change and some car tickets for his efforts.

## Kiwanis Fall Fair Set For Sept. 21st

The Dunbarton Kiwanis Annual School Fair will be held this year at the Dunbarton High School, on September 21. This will be the 13th Fair this Club has sponsored.

Prize Lists are in the process of being printed now, and these will be handed out to school children within a week or two.

There will be the usual classifications: Art, Kiwanis Seeds, Vegetables, Flower Section, Cooking and Needlework.

Besides this, there will be the Parade, which starts at 2:00 p. m. at the corner of White's Road and Concession One. The Parade will include: Decorated Bicycles; Costumes; Pets, etc.

It is expected there will be as many or more exhibits on display than last year.

## The Outhouse Got Knocked Out!

An old outhouse on the pro-smashed, one of the men taken party of Dinty Sleep, on the to Ajax Hospital with minor south side of No. 2 at Brock injuries and the outhouse was Road got smashed into kind-spread all over the lot. Road got smashed into kind-spread all over the lot. Road got smashed into kind-spread all over the lot.

## Fairport Beach Home Guttled

The one storey frame home of Mr. and Mrs. Robert Leathen of Fairport Beach was gutted on Monday evening. A few pieces of furniture were taken from the home after the blaze had been extinguished.

Mrs. Leathen had been getting dinner ready for her husband at the time fire broke out. The blaze went up the wall and the family got out. In seconds the whole house was a mass of flames.

South-West Pickering Fire Department was on the job in a matter of minutes, but the blaze had got such a head start, that most of the interior was burned before the blaze was under control.

Mr. and Mrs. Leathen have two children, Margaret 6 and

Darlene age 3. At present the Leathens are staying with Mrs. Leathen's sister in Scarborough. The Leathen family have been residing at Fairport Beach for about four years. Mrs. Leathen is the secretary-treasurer of the Fairport Beach Ratepayers' Association.

**A THANK YOU**  
I wish to extend appreciation to all concerned, regarding the Summer Recreation Program held during July and August, in our Park.

The two Directors, Marilyn Murkar and Elizabeth Bean did an excellent job with the children, and are to be congratulated.

Mrs. R. P. Winter  
Pickering Village

## Firemen Doing Great Job!

It appears that the firemen in this area, working under the Mutual Aid plan had a real job on their hands a few weeks ago, when a severe electric storm in this area started three fires, and they were all going at the same time.

We were down in the heart of Kentucky at that particular time, and when we phoned home asking about local happenings, the work of the firemen during this storm was the first item told to us.

One fireman told us this week, "I have been a volunteer fireman for several years, and been out on some bad nights, but that was the worst yet".

This particular fireman, along with several others, worked all night long in the pouring rain, then went to his home, changed clothes and went on to his regular work.

We have in the past, and will continue to carry a torch for our volunteer firemen. Some people are critical of them. Some write critical newspaper stories of them, and we fail to see why. You can bet that those who can be critical of our volunteer firemen have yet to go out and see them in action in rain, snow, freezing cold, or in hot weather.

Generally speaking, we do not cover fire stories from our own living-room. We have been out to many a fire, and in adverse weather. We have seen these men at work. And they work!

On the night of the storm, there was a fire at Mr. Harold Mitchell's barn. The small barn burned, but the large one was saved, for which the Mitchell's are very grateful, and loud in their praise of the way the firemen worked. Another fire broke out at Fairport Beach and still another barn on Station Road.

It was just too much and there was only one answer to such a problem. The answer was Mutual Aid. The call went out to nearby fire departments.

South-west Pickering and Brougham went to the Mitchell farm. Ajax, South-east Pickering and then Brougham went to the Station Road blaze. Meanwhile, Pickering Village and South-west Pickering men went to Fairport Beach. This is Mutual Aid in action.

Families who have been through the ordeal of fire, are generally quite generous in their praise of volunteer firemen. Its true, they should be. But, so should the rest of us. These same men will jump from a warm bed to go out in all kinds of weather to help you, if you are in need of their services.

The next time you feel like letting off steam about our local firemen, just remember that they risk their lives, often get hurt, often fight against losing odds and for a few dollars each year, a thank you from some people and the satisfaction of trying their hardest to do a very worthwhile job in the line of community service. A service we can't afford to be without.

## Brock Road

Mrs. McKenna, with Peter and Dianne McMurtrie have returned from their vacation at Muskoka, and their cousin David McKenna, of Toronto, is visiting them. Dianne celebrated her 9th birthday on August 28, with a party of her young friends.

Susan Raiston and Jeanny Rogers have also returned home from their vacation.

Mrs. Kaulback, of Brampton, called on Mr. and Mrs. Cornutt, on Sunday.

We are sorry to lose Mr. and Mrs. T. Wheeler who have been on Brock Road for a number of years, and we wish them the best in their new home at Locust Hill.

Mrs. D. Cornutt spent a few days in Toronto visiting the C. N. E. and attending her lodge. She also visited her grandson Ken Chafen, of Green River, who is in the Scarborough General Hospital, but is expected to leave, on Friday.

Mr. and Mrs. Donald Webb and daughter Kelly, visited friends Mr. and Mrs. Russell Boys, on Sunday. Mr. Webb, who coaches Beverley Boys, won the World's High-Diving Championship at the C. N. E. last week.

Mr. and Mrs. W. Carter and family spent a day around Lawe Simcoe last week, visiting old friends.

"IF I COULD SEE"  
To see the sudden breaking-through of spring;  
The green and green of each new growing thing;  
The blue and fleecy-white of April Skies;  
That curving shore of sand that warmly lies  
In summer sunshine; waves that lift and fling  
And blown clouds; and trees in the wind that swing.  
Casting their changing-shadows on the grass.  
To watch reflections in a pool or glass;  
A rainbow; birds in high and lovely flight;  
A laughing child; the velvet dark of night.  
To walk alone in moonlight; run through snow  
With fairy flakes wild flying; watch the glow  
Of firelight on an old and cherished room;  
And one loved face; and apple boughs in bloom.  
The flame of candles; starlight; any light,  
Sunrise and sunset; distance, wheat fields; height.  
These, and a thousand visions known to me  
Through touch and smell and hearing, I would see.  
— Mary Frances Haws

Card Of Thanks

I would like to express my grateful thanks and appreciation to the South-West Pickering Fire Dept., for their immediate response, early Wednesday morning, August 7, when my small barn was struck by lightning. The quick action and hard work of these firemen, together with the constant supply of water, saved my large barn, for which I am truly grateful. I would like also to thank all the friends and neighbors for their generous assistance; also the Brougham Fire Dept., and the Arthur Mitchell, Ltd., for their supplying of water.

Plans All Set For New County Court House And New Offices

On August 20, Tenders were opened by the joint Building Committee of the County of Ontario and the City of Oshawa, for the construction of a new Court House and Administration Building, to be located on No. 12 Highway, north of the Town of Whitby, on Rossland Road, East of No. 12, high on a hill overlooking the Town. The new structure will provide accommodation for the administration of justice and the functions of County Government.

The centre block contains four courtrooms on two floors, with a Judge's Suite for each and ancillary rooms for Jury, Witnesses and Barristers. The two-storey entrance lobby contains an open stair to a balcony giving access to the second floor court rooms. There are two elevators. The front wall is of pre-cast concrete columns and glass. In the basement, which opens to grade level on the south side, is the Judges' and Barristers' entrance, Barristers' Lounge and Law Library for the use of the County Bar Association.

The West Wing contains the offices of the County Sheriff, Crown Attorney, Surrogate Court Offices and Registrar, each with extensive fire-proof vault storage.

The East Wing contains the County Administration facilities. On the North Side, projecting out over the Main Entrance is the County Council Chambers, raised off the ground on tapering concrete columns. The Council Chamber covers the Main Entrance to the County Wing, the Driveway and a sunken Ornamental Garden.

The office accommodation includes the County Assessment Department, Ontario County Health Unit, County Engineer, the Clerk-Treasurer's Department, Emergency Measures Organization and the Family Court. In the basement is a Cafeteria, Washrooms and Vault Storage.

The building will be fully air-conditioned, and have a hot water, oil-fired heating system. Architect is T. William Beddall (Pickering) Project and Consulting Engineers, Ulrich Consultants Ltd.

Mechanical Consultant - W. Hardy Craig (Pickering); and Electrical Consultant - R. Donald Emmett.

The General Contractor is "Milne & Nicholls, of Toronto" who expect to commence work immediately, and complete the project by July 1964. The building contract is valued at \$1,077,040, not including furnishings.

Moosonee And Moose Factory

(W. C. Murkar)

Having been anxious, for some years to see Moosonee and Moose Factory, and even more anxious during the past few years, when listening to Rev. Dr. H. S. and Mrs. Shepherd, of St. George's Anglican Church here, talk about their many years in that and even much farther north areas.

Looking at our own domestic maps, Moosonee appears to be right on the shores of James Bay, yet actually the settlement is sixteen or seventeen miles up (or down, as they remind you in Moosonee) the Moose River.

Knowing that tourist traffic to James Bay is encouraged by our Travel and Tourist Associations and is increasing yearly, I had the Donald Travel Bureau, Whitby make all my necessary train and lodge reservations (and they do a wonderful job for you). There are only two methods of getting into Moosonee—railway or fly—I took the train, leaving Toronto at 6.00 p. m. Sunday, and using a "bedroom" on the Ontario Northern Train sleeper, travelling through the night, and changing to the north train at Cochrane, early Monday morning.

The Moosonee train (Diesel Locomotive) is made up of every type of car that might be expected to go into the north country: day coaches, baggage coaches, box cars, oil tankers, refrigerator cars and caboose. It's a long and not fast, all-day ride to Moosonee, the end of the line—through the densest of bush. There are few regular stops, mostly "flag stations". Arriving at Moosonee, you are met at the station by Mr. and Mrs. Mitchell, managers of the O. N. R. Lodge. You are driven a short distance to the lodge which, I believe, has a capacity of about twenty-five guests, but it is well managed, comfortable, and in many respects the equal of any of our downtown better hotels. I had a very nice room—all conveniences. The meals in the little dining-room are equal to anything south of the Arctic Circle. My only complaint was, that in spite of frequent requests to "don't place so much food on my plate", it always came along to my table, believing they were feeding a lumber-jack—but the food was always delicious, and plenty of variety. The cook, Mr. Putk and his wife took care of the kitchen and dining-room. Mr. Putk, with whom I became somewhat acquainted during

my stay, spoke three languages—English, French-Canadian and profane. He is a Finlander who with his family moved to Sault Ste. Marie when a youth, and acquired his French-Canadian accent at the schools in that city, I expect. Monday evening on arrival, I noted at dinner, on the menu "fresh pickerei". I have never been very fond of sea food of any type, but somehow this pickerei interested me. Two large helpings were served with three vegetables—that fish was "out-of-this-world". Fresh and so tastily prepared. I had more of that before the week was out.

One of the first things I observed in Moosonee was the absence of motor license plates—there's no place to go—no highway to drive on, so our Dept. of Highways are not just interested. There are however vehicles of every description and vintage running around on the dirt roads, the most of them belonging to government agencies—the hospital, Indian School, and the staff of the Defence Line which runs through this area, and accounts for about four hundred "whites" in the area. The Federal Meteorological Dept. have a station in the village, manned by five young men, who, with their families, live in nice-looking, comfortable homes, built and furnished for them by the government. Each day, at noon, and at 7.00 p. m. that six-foot balloon is released, to which is attached a small light-weight box containing a small radio transmitter, which sends back to "ground" wind velocity, temperature, wind direction and humidity. All this is received and recorded on delicate instruments in a tower in the Bureau's compound, then relayed to Kapuskasing, where this data is used in preparing some of the weather forecasts we hear down south. The wife of one of these young meteorologists, claims she never pays any attention to her husband's records, but when she wants to know what weather is on the way, she steps out her back door, where she has mounted one of those little gimmicks, which has those two little figures coming in and out through their own doorways—rain or shine, they're supposed to predict the coming weather.

Moose River, to my surprise is said to be five miles wide, but dotted with islands, with Moose Factory, the original Hudson Bay Settlement, dating back to sixteen hundred and something, on one of these islands.

Strangely, maybe, most of the guests up there were U. S. tourists. There were only three Canadians at the lodge while I was there: a couple from Stratford, and myself.

Boats can be secured to take one over to Moose Factory, which I did. An old, but very interesting spot. We visited the Anglican Church, well-remembered by Dr. Shepherd; were taken through the thoroughly modern school for the two hundred and fifty Indian children, who "live-in" and are fed and clothed during the usual school term; the modern hospital, many members of the staff of which remember Dr. and Mrs. Shepherd and their family. These government institutions and Hudson's Bay Store are heated in winter by a huge heating (steam) plant, which is coal-fired, the coal being brought over from the mainland during winter, when the ice on the river is seven feet thick. A middle-aged Indian, who spoke very nicely, obviously well educated, described this plant for me.

A boat trip up (or is it down) the river to James Bay may be arranged, and this was part of our program—a trip of several hours, seeing, on the way that huge goose sanctuary, which will shortly be providing the natives with one of the year's spectaculars—the geese taking to the air—for the far south. The odd pilot of Austin Airways (bush pilots) can be persuaded to fly you to James Bay, viewing all, and getting the only worthwhile picture of what's below at James Bay. This trip was another of the activities I enjoyed. On that particular evening, when waiting on the small dock, for our pilot to bring in his sea-plane, it was drizzling rain, with low

really good weather for what we wanted, but we flew anyway. While waiting, a well-dressed middle aged Indian came around the corner of a small office, and observed all of our party striking out at mosquitoes. He had been down from a post two hundred miles up the coast for the week-end. He was high in alcohol, and in very good spirits. Wanting to know what we were striking at, he informed us that "those ain't mosquitos, that up where he came from (holding his arms out at full length)—why last week two men were sent out to re-fuel a plane sitting out on the water, and they had pumped four hundred and fifty gallons of gas into a mosquito, before they discovered it was not a plane. Foggy, cloudy and wet, I nevertheless, got a number of good photo shots from the plane of the river below, and the thousands of flat, desolate marshy acres below.

The Ontario Provincial Police maintain a station at Moosonee—three officers and one young lady clerk-typist. Asking them what kind of duty they had away up there, there not being any traffic problems, one of the young officers said, that duty was largely that of separating Indians who got drunk and commenced to fight. Incidentally, this young lady in the police station, when hearing I came from Pickering, turned around quickly, faced me, and asked if I knew the Edgar James' family, that she corresponded weekly with daughter Carol. It's a small world. That kind of thing happens to me every time I leave home, it seems.

A middle-aged, spinster lady from New York City was a guest at this lodge that week. Her hobby, it appeared, was that of digging in the sand and mud on the river beach, looking for fossils. She had quite a collection when I left. However a young Cree is reported to have informed her she was wasting her time at this—they the Indians made those fossils in their Indian homes and planted them in the sand on the beach for just such as her. (Not too sure about this).

One strange experience of that week for me was this—my Travel Agency informed me just a few days before leaving that Mr. and Mrs. Ross Murison, of Pickering, and Mr. and Mrs. Walter Branch, Oshawa, had been trying to get reservations for the same week at Moosonee, but the agency was unable to oblige—filled up. They were he believed motoring up over No. 17 to Nipigon and return on No. 11 home. I was not aware that my Pickering friends had been planning this trip, and so, it was not a little surprise, my just having become settled in my coach for Moosonee, at Cochrane, Station I heard my name called out—Ross and Vera and the Branch's had walked into my coach, on their way to Moosonee. They had been able to make arrangements, at a motel in Cochrane for accommodation at the home of a school teacher in Moosonee for a few days. All of this was of course, a very pleasant surprise for me—we spent a good bit of our time together on the several boat and plane trips.

A highlight of the week for several of us, was the witnessing of a Baptismal Service, for the 8-week old daughter of a young Cree couple, in the little Anglican Church at Moosonee, conducted by a close, personal friend of Dr. Shepherd, Canon Sam Isertoff, himself a huge black-haired Cree Indian. The service was carried on in the Cree language, none of which we could understand, nevertheless an interesting experience.

Actually, one can see Moose Factory and Moosonee, and a part of James Bay in three days—I had paid for the whole week before leaving home, so stayed it out. I really sat around and walked up and down dirt roads for the last two days waiting for my train to come in. However, I made a trip I had been wanting to take for some years—that's done, and am now satisfied, but can recommend a trip to James Bay as "something different" and urge those interested to get up there some of these days—not in the winter—40 and 40 below with howling winds off Hudson's Bay.

And we are neighbours at the Co-op . . .

While not exactly next door we are just a short distance away from you. You have probably wondered just who and what the Co-op is.

Well, the Co-op is an organization formed and owned by the people of this community, where they pool their buying power for greater value. Organized co-operation like this has worked since 1917.

Now, this co-operative plan is being offered to "town folk" in the form of the CO-OP Sunglo Fuel Oil Program. We feel sure that you and your neighbours will want to share the benefits of dealing with the local Co-op. A call to us will bring full details about the program, convenient budget terms and the new Summer Fill plan.

Stories and Features from Bay Ridges By Pat Finn

## 1st Bay Ridges Scouts To Hold Bottle Drive Here Sept. 14th

Bottle Drive will be held at Bay Ridges on Sept. 14, by the 1st Bay Ridges Scouts. This year the boys have decided to use funds to finance their activities for the coming year. The Scouts will conduct the drive between 9 a. m. and noon. They are asked to leave bottles at the front or back door and the Scouts will pick them up. Don't forget, the date Sept. 14 for the Scout Bottle Drive at Bay Ridges.

## Make A Date For The Big Corn Roast Sept. 7th.

The big corn roast is to be held Sept. 7th at Bay Ridges Park and the Minstrels will draw. The event will be held in the pavilion which was built in July. The event starts at 6 p. m. and \$1.25 takes care of all the food you can eat, plus coffee and tea. A highlight of the evening is a Square Dance which will be in charge of a professional Caller. Keep this night free for a lot of fun with all your neighbors in Bay Ridges. By the way, this event is being sponsored by the Bay Ridges Recreation Association.

We are sorry to report that Mrs. Joyce Liscombe entered the Ajax General Hospital on Thursday for a serious operation. Her many friends wish her a speedy recovery.

## Local Boy Scout Sets Record

Something of a record has been set by a member of the Bay Ridges Boy Scouts, Calvin Cager. Calvin has only been in the Boy Scouts for about 2 years now and this summer he received his 1st Class Badge. It was presented to him by District Scout Eric Erickson.

## Enumerators On The Job This Week

With the "Ex." almost over, residents will have a chance to digest a provincial election, before getting into the regular fall activities.

In this Riding at the moment, we have the sitting member, T. D. Thomas, N. D. P. candidate running and Mr. Ab. Walker, P.C. candidate. At the time of writing, no Liberal candidate has been announced for Oshawa Riding. The enumerators have been busy here this week getting the names of eligible voters.

## Get Your Bowling Registrations In Now

Bowling registrations are being taken by Cliff Sykes at 851 Zator. The bowling season for Bay Ridges gets under way on Sept. 15th at the Ajax Bowl. For further information on the bowling registrations, call 839-3569.

## Monday, Sept. 9th. Scout Meetings Start

Regular Scout activities for the winter months in Bay Ridges get under way on Monday, September 9th at 7 p. m. in the Exhibition Hall.

It is hoped there will be a good number on hand for the opening meeting.

The weekend was pleasant for 18 Scouts of the 1st Bay Ridges troop and 3 Leaders, who camped out at Darlington Provincial Park, near Oshawa last weekend.

On Sept. 6, 7, and 8, the 1st Bay Ridges Scouts will hold their annual Patrol Leaders' conference at Darlington Park. It is expected that there will be 10 boys and 3 leaders in attendance.

## Fairport Beach

Mr. and Mrs. A. McDermott and baby daughter from Nova Scotia, visited Mr. and Mrs. Ken Dowland recently.

Mr. and Mrs. Fred Williams have returned from holidays in the Sudbury area.

Miss Margaret Tonkin is now spending three weeks at Camp Wilburmere, in Haliburton, helping out at the Retarded Children's Camp.

Sorry to hear Mrs. Louise Cummings' mother, Mrs. Pryor, is in the Ajax Hospital. We wish her a speedy recovery.

A Group Committee of the 1st Fairport Beach Cubs and Scouts, wish to thank all who helped with their activities this past summer, especially Mr. Bromitt, Mr. Baird, Mr. Ed. Chillum, Mr. Des. Donovan, and of course, Scoutmaster I. Williams, and Cub Master F. Cane. The Scouts and Cubs have had a successful year, but only because of the co-operation and enthusiasm of all the many supporters.

Linda Pickard is home from Camp Robin Hood, getting ready for school.

Donna Sheedy is spending a few days with her grandmother Mrs. W. McDonnagh, in Toronto.

Happy Birthday Wishes to: Susan Ross, 17 years old on September 2; to Donald Morris, 10 years on Sept. 3; to Evie Lee Prue, 6 years, on September 3.

The Fairport Beach Ladies' Association met on August 20. About ten members were present. After the business part of the meeting, the ladies enjoyed doing handicrafts. Mrs. Knox assisted by Mrs. Tonkin, served refreshments at the end of the evening. Their next meeting will be on Tuesday, September 17, at 8:00 p. m., in the Community Hall.

Friends and neighbours were sorry to see the terrible fire at the home of Mr. and Mrs. Robert Leathen. We are all glad none of the family were injured. A "Thank You" to the South-West Firemen for responding so promptly, to this fire call.

Church News  
Mr. G. Hunter will be taking both services on Sunday, September 1, Sunday School at 9:45 a. m. Friday Night—Junior Boys' Baseball at 7:00 p. m. Wednesday Evening—Prayer Meeting at 8:00 p. m.

## From T. D. Thomas M.L.A.

When Premier Robarts announced the 25th of September as the date of the Ontario Election, he stated the reason for calling the Election at this time, was—he wanted a mandate from the Electorate before meeting the Federal Government to discuss Federal Provincial Relations. A mandate for what? Surely the people of Ontario are entitled to know what, if any, is the program of the Conservative Party. The elections should examine the government's past record. As a member of the Ontario Legislature for the past fifteen years, I have seen the net debt of Ontario increase from \$500 million to

\$514 million in fifteen years. I have no hesitation in saying the present Conservative Government at Queen's Park, is the most extravagant administration in the history of Ontario.

In the short period of eight years, we have witnessed enquiries in the affairs of the Highway Department, The Northern Ontario gas probe, the crime probe, and other probes by independent commissions and select committees. After the enquiry into Natural Gas had been supposedly dealt with, the case is now re-opened and according to report, prominent persons in the political world are now involved.

At the last session of the Legislature, the government boasted of its new legislation, which included a minimum wage Act. This is a hollow piece of legislation for it is still discriminatory against female labour, and is confined to only 30% of the working population of Ontario. We are proud of the past members of the New Democratic Party has played in continually prodding the government to take this step. While we applaud this faltering step, we intend to continually fight for a basic minimum of \$1.25 per hour for men and women.

The Medicare Program of the Conservative Party is a hollow piece of window dressing. It is obviously intended to hoodwink the electors so that the Tories may win another election.

Portable Pensions is another force, and obviously will be

dropped if the Federal Portable Pension Plan is proceeded with. When the Ontario Plan was in the initial draft stage, it was discussed in committee, and I stated the only worthwhile plan would be a Federal one, covering every working person in Canada, a plan administered by the government. The Hon. Mr. Frost, who was Premier at that time, agreed with me, and stated that this should be the objective. Now Premier Robarts, with pressure from the Trust and Insurance Companies, intends to hand over the administration to the private companies, something the Federal government wisely intends to do itself. These questions will be raised at election time, and if they are examined fairly by the electors, I believe on the record of the Tory Party, Mr. Robarts will have some difficulty in convincing the people, he should be given a mandate to represent them at the future Federal and Provincial Elections. — T. D. T.
